

The diagram illustrates a page layout with three distinct lines: a solid magenta line for the cut line, a dashed green line for the bleed line, and a solid green line for the safety line. A central rounded rectangle is defined by the cut line, and a larger rounded rectangle is defined by the bleed line. The safety line is a thin green line that follows the inner edge of the bleed line. Labels with leader lines point to each of these lines.

Bleed Line

Background imagery is to be extended to this line.

Cut line

Where your artwork will be cut.

Safety Line
